

WIRE BRUSHES

- Good for removing, cleaning, stripping and rust removal from intricate and flat surfaces
- Also can be used for stripping paint from porous surfaces such as wood
- 1/4" shaft, max. RPM 4500

1403 1-1/2" Wire Brush - Coarse
 1404 1-1/2" Wire Brush - Fine
 1405 2" Wire Brush - Coarse
 1406 2" Wire Brush - Fine
 1407 2-1/2" Wire Brush - Coarse
 1408 2-1/2" Wire Brush - Fine
 1409 3" Wire Brush - Coarse
 1410 3" Wire Brush - Fine
 1411 3-1/2" Wire Brush - Coarse
 1412 3-1/2" Wire Brush - Fine
 2126 End Brush

2114 MINIATURE WHEELS

- Used for cleaning, stripping, removing rust from intricate surfaces
- 1/8" shaft, maximum RPM 5000

WIRE WHEELS

- Used for cleaning, stripping large metal areas and smoothing metal surfaces
- Can be mounted to bench grinders or used with #2117 arbor shaft for drills

1417 3" Wire Wheel - Coarse
 1418 3" Wire Wheel - Fine
 1419 4" Wire Wheel - Coarse
 1420 4" Wire Wheel - Fine
 • 1423 5" Wire Wheel - Fine
 • 1424 5" Wire Wheel - Coarse
 • 1421 6" Wire Wheel - Fine
 • 1422 6" Wire Wheel - Coarse
 • 1413 8" Wire Wheel - Coarse
 • 1414 8" Wire Wheel - Fine

* Brushes with 1/2" arbor and 5/8" knock-outs, all others 1/2" arbor

2117 ARBOR SHAFT

- For use with accessories with 1/2" arbors
- Maximum RPM 5,000, 5-1/6" shaft
- For use with wolcraft products #1417, 1418, 1419, 1420, 1421, 1422

CUP BRUSHES

- Used for cleaning, stripping large metal areas
- Also good for stripping paint from porous surface such as wood
- Brass coated wire helps prevent rust
- 1/4" shaft, max. RPM 4500

1425 2" Cup Brush - Coarse
 1426 2" Cup Brush - Fine
 1427 3" Cup Brush - Coarse
 1428 3" Cup Brush - Fine

- CRIMPED: for use on flat surfaces and edges; fine finish
- TWISTED: for use on angle welds and corners; use on aluminum and stainless steel

2107 2-3/4" Cup Brush, Crimped
 5/8" x 11 Thread, max. rpm 11,500

2125 2-3/4" Cup Brush, Twisted
 5/8" x 11 Thread,
 maximum rpm 12,000

2104 SPIRAL WIRE BRUSH

- Good for stripping paint from porous surfaces such as wood
- 1/4" shaft, max. RPM 3500

NYLON WIRE WHEEL & CUP BRUSHES

- Removes surface rust, corrosion, oxidation, burrs and old paint from metals and wood, cleans unfinished tiles and stone
- Lasts ten times longer than standard wire products
- Does not rust and is safer to handle

1501 2" Nylon Wheel Brush
 1500 3" Nylon Wheel Brush
 1502 4" Nylon Wheel Brush
 1505 2" Nylon Cup Brush
 1506 2-3/4" Nylon Cup Brush

4105 WHEEL DRESSER

- Grinding wheel resurfacing tool accurately restores worn, uneven silicon carbide and aluminum oxide benchtop grinding wheel surfaces for extended use
